2. **Databases – EBSCO Sport Databases.** This is a really good source of articles as it is part of our biggest database at Unitec. To access:

   e. Tick ‘Select all’ and click ‘Continue’

Once you are here you can begin finding articles.

Enter each of your keywords or terms in the different search boxes.

Tips:
- Suggested keywords appear as you type, use some of these if you can
- Try changing your keywords if you get too few results
- Try adding keywords or using more specific ones if you get too many results
- For searching New Zealand related content use the word ‘Zealand’ in one of the search boxes

To get the best results
- Tick the **Full Text** box so you get results with articles you can access through Unitec
- Tick the **Scholarly (Peer Reviewed) Journals** box, again so you get better quality research
- Use the Refiners on the left to narrow down your results

To access:
- For more information click on the blue title of the article you are interested in. This will give you the abstract and the article details.
- To read click on the link to the link to ‘PDF Full Text’ or ‘HTML Full Text’
